A CRAVING FOR CHALLENGES, DETERMINATION, DREAMS AND

This mixture
has inspired the
idea to create a new
reality for young designers
linked to the world of architecture,
design and light.
The enhancement of interiors and outdoor
areas, architectonic and design
elements,
by means of lighting and

This is where all ideas, projects, initiatives and development phases of our work start.

light engineering.

This is what inspires our desire to discover other realities, engage in dialogue with other professionals, forge new collaborations, experiment with new solutions, enter new partnerships and set ourselves new objectives.

AMBITION

WE ARE

- Lighting designers, interior designers, graphic designers.
- Young, dynamic and hungry.
- Curious and dreamers.
- Professionals comfortable in a work site setting.
- Technicians who have not shunned their creativity.
- Project managers capable of coordinating project teams.
- Capable of developing exactly what the customer wants.
- Capable of working with all lighting companies in the world, because we have already worked with most of them on previous occasions.
- Members of BNI.

- Over a hundred completed lighting projects.
- Over 98% of customers satisfied.
- Over 30 retail projects.
- Over 40 renovation projects.
- The ambition to change architectures with artificial light, to create emotions.
- Innovative ideas.
- The courage to discover what we don't know yet.
- Detailed knowledge of the led lighting world.

WHY LIGHTING AND

BECAUSE YOU TRUST US.

- It doesn't matter if projects are great or small, our passion remains unaltered!!!
- Commercial independence: we give the best advice based on actual requirements (without being influenced by commercial factors).
- Economic advantages.
- Extensive knowledge of issues pertaining to lamp construction, assembly and maintenance.
- We can say it loud: we always follow projects up close.
- We carry out light tests.
- Light is yours.

We always strive to understand and interpret your real perception of light.
